**DATE:** OCTOBER 11, 2022

---

The next stage of the Floodplain buyout program will be the management of the projects. This request is for a contract with Horner & Shifrin for the 6 lots in Foxboro under the Flood Mitigation Assistance (FMA) request. While I have been compiling the Notice of Interest forms and submitting them to SEMA (State Emergency Management Agency), Mark Koester has been working with and requesting a proposal for the management of securing the properties, demolishing the properties, and restoring the land to a green condition.

The company of Horner and Shifrin have a proposal which we are presenting to the council for consideration and approval. (attached). They have done similar program for the city of Clayton for their FEMA buyouts.
